Service-Innovation in Diagnostic care that is built on the strengths of **elab** Software

A Real opportunity for advancement is here
No New Software just upgrade your elab

To save cost of development and at the same time provide services that are on par with large corporate hospitals or labs; Tru-Solutions has developed **Patient-Access^HQ Technology** for the benefit of its loyal client base

Patients
Doctors
Branch Centers

If your lab is part of a hospital or associated with doctors, **Patient-Access^HQ Technology** reduces turn-around-time to access test results to these consultant doctors as soon as it is prepared

Availability of Test Report as digital data enables preservation of it as medical record for future reference & archiving

elab
